Supporting Pupils with Medical Needs Policy

Context

This policy was developed in consultation with parents/carers, staff and pupils and has regard to:

- Statutory Guidance : Supporting pupils at school with medical conditions – DfE – December 2015
- Section 100 of the Children and Families Act 2014 and associated regulations
- The Equality Act 2010
- The SEND Code of Practice 2015

Headteacher: James Eldon

Governor with responsibility for Medical Needs: John Eades (SEND Governor)

SENCo: Kate Dowden

Contact details: kate.dowden@manchester-academy.org

This policy will be reviewed annually

Agreed by Governing Body: Please complete

Review date: September 2025

This policy is to be read in conjunction with our:

- SEND Policy
- Safeguarding policy
- Equality Policy
- Behaviour and Anti Bullying policies
- Curriculum and Teaching and Learning policies
- Health and Safety Policy/ Emergency Policy
- School Visits Policy
- Complaints Policy

Manchester Academy

Part of United Learning

Aims and Objectives

Aim

To ensure that all children with medical conditions, in terms of both their physical and mental health, are properly supported in school so that they can play a full and active role in school life, remain healthy and achieve their academic potential.

Objectives

- To establish a positive relationship with parents and carers, so that the needs of the child can be fully met
- To work in close partnership with health care professionals, staff, parents and pupils to meet the needs of each child
- To ensure any social and emotional needs are met for children with medical conditions
- To minimise the impact of any medical condition on a child's educational achievement
- To ensure that a Health Care Plan is in place for each child with a medical condition and for some children who may be disabled or have special educational needs, that their Education, Health and Care Plan is managed effectively
- To ensure as little disruption to our pupils education as possible
- To develop staff knowledge and training in all areas necessary for our pupils
- To ensure safe storage and administration of agreed medication
- To provide a fully inclusive school.

Roles and Responsibilities

The Governing Body

- The overall implementation of the Supporting Pupils with Medical Conditions Policy and procedures of Manchester Academy
- Ensuring that the Supporting Pupils with Medical Conditions Policy, as written, does not discriminate on any grounds including, but not limited to: ethnicity/national origin, culture, religion, gender, disability or sexual orientation.
- Handling complaints regarding this policy as outlined in the school's Complaints Policy.

Manchester Academy

The best in everyone™

Part of United Learning

- Ensuring that all pupils with medical conditions are able to participate fully in all aspects of school life.
- Ensuring that relevant training provided by specialists is delivered to staff members who take on responsibility to support children with medical conditions.
- Guaranteeing that information and teaching support materials regarding supporting pupils with medical conditions are available to members of staff with responsibilities under this policy.
- Monitoring written records of any and all medicines administered to individual pupils and across the school population.
- Ensuring the level of insurance in place reflects the level of risk.

The Medical Needs Lead – Supported by SENCO and Headteacher

- The day-to-day implementation and management of the Supporting Pupils with Medical Conditions Policy and procedures of Manchester Academy
- Ensuring the policy is developed effectively with partner agencies.
- Making staff aware of this policy.
- Ensure that all supply staff are aware of the policy and are briefed on individual pupil needs where appropriate
- Liaising with healthcare professionals regarding the training required for staff.
- Making staff who need to know aware of a child's medical condition.
- Developing Individual Healthcare Plans (IHCPs).
- Ensuring that there are sufficient staff who have agreed to have supporting medical conditions as part of their job description and contract.
- Ensuring a sufficient number of trained members of staff are available to implement the policy and deliver IHCPs in normal, contingency and emergency situations.
- If necessary, facilitating the recruitment of a member of staff for the purpose of delivering the promises made in this policy.
- Ensuring the correct level of insurance is in place for teachers who support pupils in line with this policy.
- Contacting the school nursing service in the case of any child who has a medical condition.

Staff Members

- Taking appropriate steps to support children with medical conditions.

Manchester Academy

The best in everyone™

Part of United Learning

- Where necessary, making reasonable adjustments to include pupils with medical conditions into lessons.
- Administering medication, if they have agreed to undertake that responsibility.
- Undertaking training to achieve the necessary competency for supporting pupils with medical conditions, if they have agreed to undertake that responsibility.
- Familiarising themselves with procedures detailing how to respond when they become aware that a pupil with a medical condition needs help.
- Fully aware of who is a named staff member responsible for administering injections.

There is no legal duty which requires staff members to administer medication; this is a voluntary role.

- **School Nurses**
- Notify the school when a child has been identified as requiring support in school due to a medical condition.
- Support staff on implementing a child's individual healthcare plan and provide advice where appropriate
- Liaising locally with lead clinicians on appropriate support.

Parents/Carers/Guardians

- Parents have prime responsibility for their child's health and should provide the school with up to date information about their child's medical conditions, treatment and/or any special care needed.
- Completing a parental agreement for school to administer medicine form before bringing medication into school.
- Providing the school with the medication their child requires and keeping it up to date.
- Collecting any leftover medicine at the end of the course or year.
- Discussing medications with their child/children prior to requesting that a staff member administers the medication.
- If their child has a more complex medical condition, they should work with the school nurse or other health professionals to develop an individual healthcare plan, which will include an agreement on the role of the school in managing any medical needs and potential emergencies.

Manchester Academy

The best in everyone™

Part of United Learning

- Through this a medical plan can be created and circulated
- It is the parent/carers responsibility to make sure that their child is well enough to attend school.

The Pupil

- Pupils are often best placed to provide information about how their condition affects them.
- Pupils should be fully involved in discussions about their medical needs and contribute as much as possible to the development of, and comply with, their individual healthcare plan.
- Pupils who are competent will be encouraged to take responsibility for managing their own medicines and procedures.
- Where possible, pupils will be allowed to carry their own medicines and devices. Where this is not possible, their medicines will be located in an easily accessible location.
- If pupils refuse to take medication or to carry out a necessary procedure, parents will be informed so that alternative options can be explored.
- Where appropriate, pupils will be encouraged to take their own medication under the supervision of a teacher.-
- If the medication is prescribed or long term prescribed the medication must be logged

Local Authorities

- Local authorities are commissioners of school nurses for maintained schools and academies. Under Section 10 of the Children Act 2004, they have a duty to promote co-operation between relevant partners with a view to improving the wellbeing of children with regard to their physical and mental health, and their education, training and recreation.
- Local authorities and clinical commissioning groups (CCGs) must make joint commissioning arrangements for education, health and care provision for children and young people with SEN or disabilities (Section 26 of the Children and Families Act 2014).
- Local authorities should provide support, advice and guidance, including suitable training for school staff, to ensure that the support specified within individual healthcare plans can be delivered effectively.

Manchester Academy

The best in everyone™

Part of United Learning

- Local authorities should work with schools to support pupils with medical conditions to attend full-time.
- Where pupils would not receive a suitable education in a mainstream school because of their health needs, the local authority has a duty to make other arrangements.
- Statutory guidance for local authorities sets out that they should be ready to make arrangements under this duty when it is clear that a child will be away from school for 15 days or more because of health needs (whether consecutive or cumulative across the school year).

Individual Health Care Plans

- An Individual Healthcare Plan is a document that sets out the medical needs of a child, what support is needed within the school day and details actions that need to be taken within an emergency situation. They provide clarity about what needs to be done, when and by whom. The level of detail within the plans will depend on the complexity of the child's condition and the degree of support needed. This is important because different children with the same health condition may require very different support.
- Individual healthcare plans may be initiated by a member of school staff, the school nurse or another healthcare professional involved in providing care to the child. Plans must be drawn up with input from such professionals e.g. a specialist nurse, who will be able to determine the level of detail needed in consultation with the school, the child and their parents.
- Plans should be reviewed at least annually or earlier if the child's needs change. They should be developed in the context of assessing and managing risks to the child's education, health and social well-being and to minimise disruption. Where the child has a special educational need, the individual healthcare plan should be linked to the child's statement or EHC plan where they have one.
- Parents will receive a copy of the Health Care Plan with the originals kept by the School. Medical notices, including pictures and information on symptoms and treatment are placed in the staff room and given to the child's class teacher for quick identification, together with details of what to do in an emergency.

Medicines

- Where possible, it is preferable for medicines to be prescribed in frequencies that allow the pupil to take them outside of school hours.

Manchester Academy

The best in everyone™

Part of United Learning

- If this is not possible, prior to staff members administering any medication, the parents/carers of the child must complete and sign a parental agreement for a school to administer medicine form.
- No child will be given any prescription or non-prescription medicines without written parental consent except in exceptional circumstances.
- Where a pupil is prescribed medication without their parents'/carers' knowledge, every effort will be made to encourage the pupil to involve their parents while respecting their right to confidentiality.
- No child under 16 years of age will be given medication containing aspirin without a doctor's prescription.
- Medicines MUST be in date, labelled, and provided in the original container (except in the case of insulin which may come in a pen or pump) with dosage instructions. Medicines which do not meet these criteria will not be administered.
- A maximum of four weeks supply of the medication may be provided to the school at one time.
- Controlled drugs may only be taken on school premises by the individual to whom they have been prescribed. Passing such drugs to others is an offence which will be dealt with under our Drug and Alcohol Policy.
- Medications will be stored in Student Services All medicines must be stored safely. Children should know where their medicines are at all times and be able to access them immediately. Where relevant, they should know who holds the key to the storage facility. Medicines and devices such as asthma inhalers, blood glucose testing meters and adrenalin pens should be always readily available to children and not locked away;
- Any medications left over at the end of the course will be returned to the child's parents.
- Pupils with asthma are encouraged to carry their inhalers with them. However, a spare inhaler should also be kept in the school office or classroom. Children with diabetes are encouraged to keep medication close to hand. They are able to take high energy snacks when needed and at any point in the day.
- Written records will be kept of any medication administered to children. An example can be found in Annex 3.
- Pupils will never be prevented from accessing their medication.
- Sharps boxes should always be used for the disposal of needles and other sharps.
- Defibrillators are available in school located within the PE department and the C floor.

Manchester Academy

The best in everyone™

Part of United Learning

- Manchester Academy cannot be held responsible for side effects that occur when medication is taken correctly.

Educational Visits

- We actively support pupils with medical conditions to participate in school trips and visits, or in sporting activities but are mindful of how a child's medical condition will impact on their participation. Arrangements will always be made to ensure pupils with medical needs are included in such activities unless evidence from a clinician such as a GP or consultant states that this is not possible.
- A risk assessment will be completed at the planning stage to take account of any steps needed to ensure that pupils with medical conditions are included. This will require consultation with parents and pupils and advice from the school nurse or other healthcare professional that are responsible for ensuring that pupils can participate. A copy of the child's health care plan should be taken with the child on an Educational Visit.
- The class teacher must also ensure that medication such as inhalers and epi-pens are taken on all school trips and given to the responsible adult that works alongside the pupil throughout the day. A First Aid kit must be taken on all school trips. The Trip Leader must ensure that all adults have the telephone number of the school in case of an emergency.
- A three day trained first aider should attend all school trips especially when a child with a specific medical need is going. The first aider provisions at the destination of the trip should be included as part of the risk assessment. The party leader must ensure that all necessary medicines are taken on the trip. This will mean checking the medical requirements of the class and ensuring that any child with a specific medical condition has access to prescribed medicine whilst on the trip.

Staff Training

- The school provides regular whole-school awareness training to ensure that all staff are aware of this policy and their role in implementing the policy. This is also included in induction arrangements for new staff.
- Any member of staff providing support to a pupil with medical needs must have received suitable training. It is the responsibility of the Headteacher to lead on identifying with health specialists the type and level of training required, and putting this in place. The school nurse or other suitably qualified

Manchester Academy

The best in everyone™

Part of United Learning

healthcare professional should confirm that staff are proficient before providing support to a specific child.

- Training must be sufficient to ensure that staff are competent and have confidence in their ability to support pupils with medical conditions, and to fulfil the requirements as set out in individual healthcare plans. They will need to understand the specific medical conditions they are being asked to deal with, their implications and preventative measures.
- Staff should not give prescription medicines or undertake health care procedures without appropriate training (updated to reflect individual healthcare plans at all times) from a healthcare professional. A first-aid certificate does not constitute appropriate training in supporting children with medical conditions.
- It is important that all staff are aware of the school's policy for supporting pupils with medical conditions and their role in implementing that policy. The school ensures that training on conditions which they know to be common within their school is provided (asthma, epi pen, sickle cell, diabetes for example)
- Parents can be asked for their views and may be able to support school staff by explaining how their child's needs can be met but they should provide specific advice, nor be the sole trainer.

Emergency Procedures

- Medical emergencies will be dealt with under the school's emergency procedures
- Where an Individual Healthcare Plan (IHCP) is in place, it should detail
 - What constitutes an emergency
 - What to do in an emergency
 - Ensure all members of staff are aware of emergency symptoms and procedures
 - Other children in school should know to inform a teacher if they think help is needed
- If a pupil needs to be taken to hospital, a member of staff will remain with the child until a parent arrives.

Unacceptable Practice

As outlined in the DfE statutory guidance.

Manchester Academy

The best in everyone™

Part of United Learning

Although school staff should use their discretion and judge each case on its merits with reference to the child's individual healthcare plan, it is not generally acceptable practice to:

- prevent children from easily accessing their inhalers and medication and administering their medication when and where necessary
- assume that every child with the same condition requires the same treatment
- ignore the views of the child or their parents; or ignore medical evidence or opinion (although this may be challenged)
- send children with medical conditions home frequently for reasons associated with their medical condition or prevent them from staying for normal school activities, including lunch, unless this is specified in their individual healthcare plans
- if the child becomes ill, send them to the school office or medical room unaccompanied or with someone unsuitable
- penalise children for their attendance record if their absences are related to their medical condition, e.g. hospital appointments
- prevent pupils from drinking, eating or taking toilet or other breaks whenever they need to in order to manage their medical condition effectively
- require parents, or otherwise make them feel obliged, to attend school to administer medication or provide medical support to their child, including with toileting issues. No parent should have to give up working because the school is failing to support their child's medical needs
- prevent children from participating, or create unnecessary barriers to children participating in any aspect of school life, including school trips, e.g. by requiring parents to accompany the child.

Complaints

Please refer to the school's complaint's policy.
